Gaywings (*Polygala paucifolia*)

The **Gratiot Lake Conservancy**
is sponsoring their **SECOND**

BOTANY WORKSHOP

on June 4 & 5

9:00 a.m. - 3:00 p.m.

What's the botany workshop all about?

- The workshop, taught by botanist Janet Marr, will be held in the plant-rich Keweenaw Peninsula and is open to any one interested in learning how to identify local native plants.
- Workshop activities will take place both **inside** the classroom and **outside** where the plants are growing in their natural habitats.
- Discover what a dichotomous key is and why it's so useful in identifying those puzzling "what **IS** that plant" plants!
- Use a hand lens and dissecting microscope to get up close and personal with flower and other plant parts that are important in plant identification.
- Make a plant collecting book to take home with you!

Space is limited and advance enrollment is required. Workshop fee is \$70. (\$55 for Gratiot Lake Conservancy members.) For further information or to register please contact the Gratiot Lake Conservancy at belh@bellatlantic.net or P.O. Box 310, Mohawk, MI 49950 or call **906-337-5529**.
