

Let ML & SA order for you...

If your school or lake association would like to get involved in this project, we are offering a basic service to make it even easier for you. We have put together a basic Starter Package and a Deluxe Package. Upon receiving your completed contract, you can choose the option of having us order the equipment needed for the program.

Starter Package: Includes each of the following on this page...

Texas Instrument Voyage 200
Personal Learning Tool

Water, Water Everywhere But Is It Fit?

Issues Pertaining to Water Quality
and Water Quality Testing
Using a TI Graphing Calculator
and Calculator Based Laboratory

Written by: Randy Cook

Water Manual on CD
Using Microsoft Word
Format. You will be
given permission to copy and
print for your educational
needs and purposes.

Calculator Based Laboratory
System 2

Conductivity Probe

pH Probe

Turbidity Sensor

Temperature Probe

To order this Starter Package, send a check or money order made out to Michigan Lake & Stream Associations for the amount of:

\$800.00

The Deluxe Package Includes: Everything in the Starter Package **Plus** each of the following...

Colorimeter

Barometer

Dissolved Oxygen Probe

Calcium Ion-Selective Electrode

Chloride Ion-Selective Electrode
